

To whom it may concern,

Re: Declaration about intake of chronic medication when departing the country

I hereby declare that the traveler ID
Is a patient being under my supervision and being treated regularly with the
medication **HUMIRA®** (adalimumab 100mg/ml) (through syringe/injection pen).

The treatment is chronic and does not enable discontinuation of medication intake
and therefore I kindly ask you to allow the traveler to onboard the flight carrying the
medication with him/her.

It is important to mention that the medication is temperature sensitive and therefore it is prohibited to send it with the luggage to the plane's luggage compartment.

Please confirm that the traveler can board the flight while
carrying her/his medicine inside the cabin baggage.

Regarding any question concerning my patient,
please contact me.

Sincerely,

Physician's name:
